It's a complete, locked and mastered, solo experience! The visual style and concept of Midwintär is a mixture of fantasy and horror folklore, specifically drawn from "folklore from the world of the werewolves", by combining a modern approach to the protagonist, a medieval setting, and a hidden narrative shaped by an ancient force. Midwintär is a top-down stealth action horror game where players must master the night to uncover the true nature of the village's corrupt religious organization and take revenge. Midwintär is developed by FourDoor Studio and is scheduled for a release in early 2018. ----- Follow us on Twitter! Like us on Facebook!
