What's New In Flip PDF Plus Corporate Edition?

Flip PDF Plus Corporate Edition is an application designed to provide users with the possibility to easily create flipping books from their PDF files, to provide users with an interactive experience online. The tool is aimed mainly at enterprises, allowing them to build Flash books and shopping magazines effortlessly, courtesy of an intuitive interface and fast performance capabilities. Straightforward functionality The software is suitable for a wide range of users, including those who do not possess advanced computer skills, due to the fact that its various functions are only one click away, on its main window. Users interested in building Flash magazines from their PDF files simply need to browse the computer for the document they want to convert, apply the customizations they want, and then publish the result to an output file format that suits their needs. Create shopping catalogs Flip PDF Plus Corporate Edition includes functionality from two other applications, namely Flip PDF Professional and Flip Shopping Catalog, while also providing users with a few features of its own, such as online storage and multi-user support. The tool can be used for simple PDF conversion purposes, as well as for creating shipping catalogs that can help a company better promote its products and boost sales. Apply templates and themes Users can take advantage of a series of pre-loaded templates that are conveniently organized into categories such as Classical, Spread, and Float, while also having the option to apply various themes to their creations. With the help of this tool, users can import links and bookmarks to their flipping books, can set security permissions for them, and enable annotations for their readers. Export to various formats The program comes with support for a wide range of output file formats, allowing users to publish flipbooks online immediately as HTML or to save them to their computers as applications. All in all, Flip PDF Plus Corporate Edition is an easy-to-use but powerful application for transforming PDF files into flipbooks with only a few mouse clicks. It offers support for building shopping magazines with a large amount of customizations, and can also export projects to exe files. Flip PDF Professional Edition is a utility designed to provide users with the possibility to easily create flipping books from their PDF files, to provide users with an interactive experience online. The tool is aimed mainly at enterprises, allowing them to build Flash books and shopping magazines effortlessly, courtesy of an intuitive interface and fast performance capabilities. Straightforward functionality The software is suitable for a wide range of users, including those who do not possess advanced computer skills, due to the fact that its various functions are only one click away, on its main window. Users interested in building Flash magazines from their PDF files simply need to browse the computer for the document they want to convert, apply the customizations they want, and then publish the result to an output file format that suits their needs. Create shopping catalogs Flip PDF Professional Edition includes functionality from two other applications,
