So What Is Lucky's Tale? By Pierre Levett Lucky's Tale isn't your average platformer. It's an indie game created by PlayFab Inc. from San Francisco. The game has won a bunch of awards such as the 2014 Independent Games Festival in the People's Choice Award, and the Games for Change Awards from the Electronic Entertainment Expo. It has also been nominated for many other awards. The game is a fun cartoon platformer, in which the titular character (Lucky) jumps into a cartoon world. It's all about making a comeback, and this game is a great action game for anyone who is a fan of the platformer genre. This game is a new edition of the popular platformer, Super Lucky's Genesis. Gameplay A cartoon platformer that is pretty easy to control. It's easy to get into, and once you start to get into it, you won't be able to put it down. The cartoon platformer is very easy to handle, and it is also easy to catch up. This game has graphics that is suitable for any age. Lucky's Tale is a 3D platform game in the style of Super Mario Bros. It has a classic feel that is almost hard to dislike. The controls are easy to get used to, and once you get used to the controls, you'll never want to play another platformer. Lucky's Tale is a fun game. Customize Your Hero By Charlie Samuel Lucky's Tale is a game for the masses. For starters, there are no special moves that you learn on your way through the game. However, the game does have a great arsenal of different platforms to leap through. There are countless types of stages in this game. Each stage has different obstacles, and you can customize the way you progress through the game by jumping around them. The levels in this game are very easy to complete, and you just need to get through them, one stage at a time. Once you finally get to the end of a stage, you will unlock a secret item that will give you a skill that you can use for the rest of the game. Some of the secret items unlock skills that make it easy to collect coins and powerups. The best part of this game is the fact that every stage can be played

What's new:

Ladies and gentlemen,D.J.X. made this game (now dubbed "SUPER Dungeon Maker") for the record world with the intent of producing an indie game such as MMORPG - The game sounded too good to be true, but D.J.X. was awesome at self-promotion too, and that seems to have worked out.I'd be proud to be one of the millions who have enjoyed it.A disclaimer: I'm not affiliated with D.J.X, they are not paying me, nor are any of the people listed on this character sheet.I have no vested interest in making money or competing with D.J.X., in fact, I am somewhat jealous and disdainful of the fact that they have become such an expert at marketing in a very short amount of time.Opinions, expressions, and characters are mine alone and do not reflect any talent I may have.Nothing here is officially approved by D.J.X., but they are providing reasonable context for the content.This is the Prologue of the series. Feel free to provide feedback and opinions as to whether or not this is a series worth continuing, or whether it was even worth production.To gather feedback, the following is a main character sheet:Character table:Name: FinkAge: 15Class: GyrfalconGender: MaleAffiliation: KyobukanLevel: 22-00Gang: Honoji ClanLevel: 17-49Level: 27-60Skill points: 2/2 or 3/4Experience: Yeosu Level: 54, Kyobukan Level: 67, and Honoji Clan Level: 55Crafting level: 57Skill list is in a format similar to this: See explanations below."Symbol": Is a skill learned by leveling up.EXPLANATION: 1-3 are the skill points a skill will grant.Skill "Symbol": Shows the actual cost.EXPLANATION: Quantity is the number of skill points and Cost is the actual number of currency.Magic discovered: How to use a particular item.Use period: How long until a special effect expires.EXPLANATION: Period is the duration in seconds.Tier; is a dummy tier for sorting items.EXPLANATION: This is a dummy tier in terms of anything other than "using" the items.Please see the tutorial for a list of common items.You can use only one item at a time.EXPLANATION: You can
