Sony has announced that a free update will go live as early as next week. Sony has provided a trailer for the August 1 update. We don't get a full list of new features, but it looks like users will be able to see their friends' recent activity and also see what trophies others have earned. The August 1 update should also get new icons for the YouTube app and a number of "enhancements" across the interface. Be sure to let us know if you receive the update early. Whether it brings enough that you want to ditch your subscription remains to be seen, but it might make the free trial go by a little faster.Indomethacin does not alter hypercapnic ventilatory response in awake rats. Airway obstructive or non-obstructive airway diseases are associated with increased hypercapnic ventilatory response. There is limited information about the effect of cyclooxygenase inhibitors on respiratory control mechanisms. Cyclooxygenase-derived prostaglandins play a fundamental role in the control of airway tone and might modulate the response to hypercapnia. To assess their role in the modulation of the hypercapnic ventilatory response, we studied the effect of indomethacin, an inhibitor of cyclooxygenase, on the hypercapnic ventilatory response in awake rats. Lung mechanics and ventilatory parameters were measured in unrestrained rats in the presence of normal saline or indomethacin (10 mg/kg, intraperitoneally) and in the presence of hypercapnia (8% CO₂). In the normal saline group, the hypercapnic ventilatory response was 3.0 +/- 0.2 breaths per minute per liter of CO₂. Indomethacin administration had no effect on the ventilatory response to CO₂. This result suggests that, in the awake rat, the cyclooxygenase pathway does not play a significant role in the modulation of the hypercapnic ventilatory response.Q: Port OpenVPN to 2 different Use Cases Can I have a VPN in use for multiple Use Cases?
