The land of Elden is the setting for our fantasy action role playing game. Arguably, the most prominent enemies are humans. They attack the Elden, a race of elfin-like creatures, either by force or by deceit. As they did with the elves, they often built great wonders, and now their most recent project, the Elden Ring, has been built. It was a grand project, the Elden were proud of it, yet it's state of completion had been unknown. The typical roles of the four human clans consist of the nobility, the clergy, the merchants, and the warriors. In addition, they have a unique class of Argonauts

who perform special duties assigned by the council. However, as the game progresses, the Argonauts play a major role. Argonauts are prone to strange rumors and are the first to find new equipment. Currently, they travel the world along the Elden Ring's main road, hunting down the monsters who inhabit the Lands Between. The Elves were attacked at the outset of the second era and a large number of them died.

Humans succeeded in capturing many Elves as prisoners and bringing them to the Land Between. Many Elves were not very happy about it, and some of them have since disappeared. Their disappearance is a mystery, one that leaves many of the Elden gloomy.

Setting: Land Between Players can seamlessly travel through the Lands Between to reach a variety of places. The Lands Between are a series of new worlds, each of which has a feel of its

own. Players can freely travel to these areas, and the Worlds Between tend to have plenty of monsters and NPC characters. With the limited time that players can travel within the Lands Between, there are a variety of problems that players may encounter. Monster attacks can happen suddenly, making it difficult for players to avoid. This is a problem that players can easily solve if they are travelling with a good team.

THE CHARACTER CREATION SYSTEM

The main character of the game is an elf named Tarnished. Tarnished is your main character.

If you are looking for balance, fairness, and complete clarity regarding what information or responses the hype media is creating, here you are:

@thegrig556 suggested we run the list of what the 'hype media' has claimed and attempted to substantiate the claim so we can arrive at a solid conclusion without getting annoyed because we are clearly too intelligent to get worked up about many things out here.

This is a long one and I'd love to see your feedback - so let us know below what information actually has been published and what is speculative junk journalism. Note that in the following copy pastes, I will be considering what feels to me like egregiously false information, as that

The third issue is whether the district court erred in failing to grant summary judgment on Ms. Shedd's retaliation claim. The court concluded that the evidence regarding the company's seniority plan, the timing of Ms. Shedd's transfers, and district meetings gave sufficient evidence of pretext to survive summary judgment. The court went on to conclude that Ms. Shedd established a prima facie case of retaliation.
