Q: How to add only the image/file to thread? I have a div that has a file input. I can attach the file through a form. After the form submit, the user can enter specific information to the thread. This information is added to a db table. I am trying to add the picture to the thread before the users inputs the information. My problem is that the picture is added as a blob which means that my code can't recognize the picture. This is the code:

```
foreach ($item as $i => $l) { $this->thread[$i]['user_id'] = $l['user_id'];
$this->thread[$i]['cover_type_id'] = $l['cover_type_id']; $this->thread[$i]['topic_id'] = $l['topic_id'];
$this->thread[$i]['posting_date'] = $l['posting_date']; $this->thread[$i]['title'] = $l['title']; $this->thread[$i]['image'] = $l['image'];
$this->thread[$i]['message'] = $l['message']; $this->thread[$i]['user_name'] = $l['name']; $this->thread[$i]['photo_file'] =
$l['photo_file']; $this->thread[$i]['photo_link'] = $l['photo_link']; $this->thread[$i]['photo_title'] = $l['photo_title'];
$this->thread[$i]['date_posted']
