I'm proud of everything that has gone on over the past year, and I hope you all enjoy. New features this release: \* New video format for videos \* Music focus this mixtape Download link at Mixtapes #3 and #2 are on the way as well. Due to the success of previous mixtapes, I have decided to create a small site for everyone to create and share your own mix. There will be a few basic guidelines for this site, but once you have created your mix and posted it, it will be yours to do with as you like. (Leaving all the files here doesn't make it free though, you do have to submit it to the site at some point) The idea of this site is to create a place where you can upload your mixes and other video content, and make them available for everyone to download. In order to do this they will have to go through a few steps and have some basic functionality. I also want to create a place where all the mixes will be available for free, so if you want to get around this step, you will have to leave your track files somewhere else. In all honesty, I am more than happy to keep them here, but I would rather not get bogged down with hosting and red tape. So if you are interested in taking part, send me an email. I will also be posting details to a private mailing list. All the songs are great as always. I especially like Chicago and Evanescence. Please keep 'em coming. I also finished up a new computer (X200) and now have a back up disc. Can't wait to see what you guys can come up with. -Keon i would like to extend a warm welcome to a new member of the ccc. massagerix (aka james) is a one-man team who manages to keep this site c6a93da74d
