Q Can I use Photoshop in the Apple iPad? A Most desktop and laptop computers can be connected to the Apple iPad via a USB cable and the wireless keyboard that comes with the device. Connecting to the Internet (which iPad owners do on a daily basis) and viewing web pages requires a connection to a computer. Adobe software is available for the iPad. # Appendix G. Tones of Gray Figure 8-1 displays a grayscale Adobe Photoshop image. Figure G-1 shows a grayscale version of Figure G-1. **Figure 8-1:** This image has been converted to grayscale. | --- | --- **Figure G-1:** The grayscale Photoshop image in Figure 8-1. | --- | --- The tones of gray image shown in Figure G-1 was created by converting the colors in a multicolor image to grayscale with the Convert to Grayscale command. This command is accessible via Image Adjustments Levels. You can see some of the settings that go

into this conversion in the dialog box shown in Figure G-2. **Figure G-2:** The Levels dialog box | --- | --- When converting to grayscale, levels add saturation (color) to any given gray color. If an image contains lots of colors, the colors may end up being amplified in the grayscale conversion. The larger the image, the less chance it has of preserving details. To make the colors in a digital image grayscale, use the Convert to Grayscale command. For more information, refer to Chapter 14. You can adjust the Levels dialog box settings for all color images with the following steps: 1. **With the image displayed, click the dialog box's Adjustments button, shown in Figure G-2.** The dialog box opens. 2. **On the Curves dialog box, shown in **Figure** **G-3**, select the Lightness Curve, shown in **Figure** **8-2****

Q: Show description of a file in Recycle Bin on Exclude Filters I have an NTFS drive in a server I have no control over the config and file filters on. I am excluding several files (and their children) based on their content. While in Windows Explorer, you can find out which file type the exe is by double clicking it and it shows: Description: The description is not present for the above file. In Windows Server, I am using Recycle Bin to "show all items [in] the recycle bin". I would like to make some of the files I "gag" show these descriptions. Is it possible? A: Thanks to the comment of kostix, I found the command echo from a comment in technet (see this) and tried it out, and found out it works. To display the description, run the command: echo. Example: echo(This is a test file). Output: This is a test file. So to summarize, it looks like the description is not present for the above file. Q:

Installing IBM Cloud Kubernetes Service (K8S) on GCP I'm trying to follow the docs on installing the Kubernetes service on GCP. The docs mention a need to get the "Get started with IBM Cloud Kubernetes Service" tool. Then they mention that there is a tool by the same name in the tools available for Google Cloud, which you can install with: `gcloud beta container clusters create CLUSTER_NAME \ --machine-type F1 \ --zone us-central1-a \ --num-nodes 4 \ --master-machine-type n1-standard-1 \ --master-boot-disk-size=200GB \ --master-boot-disk-type=pd-standard \ --subnetwork gke-us-central1-a \ --scopes gke-compute-rw \ --enable-docker` Now, if I look at the tools available for google cloud, there is no such tool named "Get started with IBM Cloud Kubernetes Service" in the "Google Cloud Tools for Eclipse" folder
