this transformation is derived from the super saiyan blue transformation seen in the manga, dragon ball super, the movie dragon ball z: fukkatsu no f, dragon ball gt, and dragon ball kai. [37] when a saiyan has reached super saiyan blue level of power, while battling a stronger opponent, if the opponent attacks the saiyan, the saiyan will automatically begin transforming into super saiyan blue form in order to defend himself. [29] after which, the saiyan remains in super saiyan blue form. in dragon ball z, "goku's 10,000-power-up" transformation is usually performed on a super saiyan when he is fully fed up, usually during the buu saga. in dragon ball gt, this power up is performed on goku in dragon ball vatunu, when krillin is sparring with a level 3 kamehameha user. goku is able to activate a super saiyan 2 transformation much faster than when he had awakened it in dragon ball z, and is able to achieve an even faster fusion after his training in the hyperbolic time chamber. in addition, his battle power is much higher, as shown when he was fighting bardock and was easily able to effortlessly overpower him. [29] this is also more difficult to achieve, requiring much more training in the hyperbolic time chamber and needing to channel his own ki. although the game retains the feeling of the old tenkaichi series, [43] it has been streamlined, and now resembles the "final battle" series, where the emphasis is on power throwing and combat. by utilizing the brand new super saiyan form and acquiring support troops such as dragon ball z online characters, the user can battle through several story modes and unlock the other forms of dragon ball z ultimate tenkaichi for pc highly compressed. each step is more powerful than the previous one, and the form is equipped with a powerful, fire-like aura that allows the user to bypass dragon ball z ultimate tenkaichi for pc highly compressed weak points. dragon ball z ultimate tenkaichi for pc highly compressed the user can activate the tenkaichi state from the start of the game. the level of the game takes place in the island where goku, gohan, vegeta, and gohan were first introduced in the series. the legend of goku, which has been released in north america, is the first version to give the user a choice between the android saga or android saga arc; however, it still gives the player the choice to play as gohan, trunks or vegeta. an update to the game, available as a downloadable content, adds support for the collection of the game series in dragon ball z ultimate tenkaichi for pc highly compressed for the first time since the release of dragon ball z : fusion reborn in 2010. [11] the collection comes in three pieces, and it is meant to take the player on the journey of goku and gohan through the time when goku was just a child until he achieved his adulthood. if the user has not played the ultimate tenkaichi for pc highly compressed disc, they can immediately activate the dragon ball z ultimate tenkaichi for pc highly compressed modes with a single disc, even if they have played the game previously. additionally, the collection of the game includes the following features: 1. the ability to play the game in the super saiyan state ; 2. tenkaichi and ssj2 story modes; 3. tales of the dragon; 4. the eight video game masters; 5. characters from the anime such as goku, vegeta, gohan, frieza, cell, raditz, android 18, majin buu, etc. 6. fusions (artificial humans and android are unlocked by scanning the card of a creature fused with an energy scanner); 7. boosted forms; 8. species traits; 9. ability to unlock the
